

DORS – Tuesday after school open computer lab

On Tuesday, September 8, our after school open computer lab will begin.

DORS is an open computer lab that is designed for students who require additional time to complete assignments and lessons on the computer. The lab is open every Tuesday that we have school from September 8 through May 11, except for the week of Thanksgiving. It is held in Computer Lab B in the library from 3:00 to 6:00. A student may sign in at any time during these hours and work on computer keyboarding, computer assignments, homework, or read their IR book. The following are rules that are followed at DORS:

- **Sign in.**
- **No talking.**
- **No gum, food, or drink.**
- **School internet policies are in effect.**
- **You need to ask to leave. Sign your full name and time you leave on the board in front of the room. Erase when you return.**
- **A parent must come inside and sign you out by 6:00.**
- **Work on computer lessons, computer projects, homework, or IR.**
- **Assignments or information for school may be printed. Please ask before you need to print.**

Thanks,
Anne Crawford
